LETTER BODY

Dear Mr. Suresh Bansal,

Thank you sincerely for taking the time to meet with me on **June 4, 2026**, to discuss the **Senior Software Engineer** position at **TechNova Solutions**. It was a pleasure speaking with you and learning more about the team's vision and the exciting projects currently in development.

Our conversation reinforced my enthusiasm for this opportunity. I was particularly excited to hear about TechNova's plans to expand the platform's AI-powered recommendation engine — having worked on a similar machine-learning integration at Tops Technology, I believe I could contribute meaningfully to that initiative from the outset.

I also wanted to briefly add that in my previous role, I led a codebase migration from a monolithic architecture to microservices — an initiative very similar to the transition challenge you described. I would be glad to share more details at your convenience.

I remain very interested in this position and am confident I would be a strong fit for your team. Please feel free to reach out if you require any additional information. I look forward to hearing about the next steps.
